We are also making up a number of small DINNER SETS, 40 to 50 pieces, at per half set ..... **\$11.50**

### MCDONALD GAINS TWENTY POUNDS

Also Gets Rid of Rheumatism After Tanlac Builds Him Up.

"If there was ever a time in my life when I felt better than I do since taking Tanlac, I can't remember it," said Rod C. McDonald, the blacksmith, living at 4 Canard Street, Halifax, a few days ago.

"Just a spell of 'flu' I had last fall," continued Mr. McDonald, "left me with stomach trouble and rheumatism and so went and my stomach was so upset that even the sight or smell of food would nauseate me. I would often leave the table without eating a bite and when I did eat anything it seemed to do me little, or no good, as I fell off twenty pounds in weight. My nerves were so shattered that I would wake up at all hours of the night, move about any sound, and felt so bad in the mornings that it was all I could do to get off to the shop, and besides I just hurt all over with rheumatism. My legs, arms and shoulders seemed to ache clean to the bone. My joint would get stiff and I could hardly bend them in damp weather, especially, I couldn't make a move without suffering agony. There was a constant pain in the small of my back, and my arms and shoulders were so stiff and painful that it was difficult for me to raise my hands up to my head. I was so stiff and aching in the mornings that I had trouble getting my clothes on, and between the rheumatism and that tired, worn out feeling I was about 'all in'."

"Just before I started on Tanlac I had made up my mind to stop trying to work and go to the country and see that would help me, for I was getting worse all the time. In the meantime I ran across a Tanlac testimonial that described my case so well that I concluded to see if the medicine would help me. Well, it has not only helped me, but it has made a new man of me. I have taken six bottles now and have gotten back twenty pounds of my lost weight. My appetite is great and I am eating three hearty meals every day and my stomach never troubles me in the least. And as to the rheumatism, I haven't a touch of it since I finished my second bottle of Tanlac. I believe it has left me for good, for I can work ten hours a day and never feel a sign of it. I can go to bed at eight o'clock at night, and sleep like a log until six the next morning. All that stiff, weak feeling is gone and I can now show an average of twelve hours a day and still feel fine. I don't feel the effects of the 'flu' now any more than I had never had it. In fact I am just feeling fine, and can recommend Tanlac as by far the greatest medicine I have ever used."

Tanlac is sold in Red Deer by Gaetz-Cornett Drug & Book Co., in Stettler by the Palace Pharmacy, Ltd., in Stettler by Schell Drug Co., in Veteran by Veteran Drug Store, in Delburne by E. J. Hogge, and in Hespero by Macdonnell Bros.

### FAIR DIRECTORS ORGANIZE FOR 1920

FAIR DATES, JULY 10-14.

At a meeting of the Red Deer fair directors on Friday, Feb. 6th, there were present: Mr. Bjorkeland, Vice-President, in the chair; Mr. Welton, Secretary and Manager; Messrs. Svein, McQuinn, Gumble, Welliver, McEwan, Milne, Egelkraut and Galbraith. The Vice-President and Secretary were authorized to make arrangements for hay and straw.

The chairman, Dr. McEwan and Mr. Welton reported on the Western Canada Fairs Association convention. Mr. Bjorkeland was not satisfied with the service Class B Circuit got in the organization, and pressed for more self-government for these fairs. While the grandstand attractions had been arranged for, the Midway arrangements for B fairs were still under consideration.

It was decided to appropriate \$1200 for horse racing, the same as last year. Luke's W. A. application for the refreshment booths and dining hall on the same terms as last year was referred to the Refreshment committee.

Mr. W. J. Stark, secretary W.C.F.A., wanted the race programme by March 1 to publish in the W.C.F.A. programme.

The McCall Aero Corporation, Calgary, offered terms for aeroplane flights at the fair; the rate for individuals this year is \$10.

The Provincial Department of Agriculture acknowledged resolutions of appreciation.

The different fair department committees were provisionally constituted, the conveners being as follows:

Beef Cattle—McPherson  
Dairy Cattle—G. W. Smith  
Horses—Bjorkeland  
Sheep and Swine—Egelkraut  
Poultry—Milne  
Honey—Bjorkeland  
Domestic Manufacture—Tallman  
Commercial Exhibits—Stone  
Concessions—Welton  
Attractions—Botterill  
Dining Hall and Refreshments—Galbraith  
Horse Racing—McEwan  
Grounds—McEwan  
Gates—Malcolm  
Finance—The President  
The President, Vice-President or Manager Welton—two of them were appointed delegates to the Alberta Fairs Association convention at Edmonton on February 24 and 25.

The matter of appointing an Executive was discussed, but no action was taken.

The Orangemen will be in Red Deer on Monday, July 12, the second day of the fair.

Accounts were passed: J. Youmans, auditor, \$35; expenses to W. C. F. A. convention \$45.60.

ALBERTA WHEAT BETTER FOR SEEDING.

New York, February 11—(Alberta wheat is of a fine grade for seed purposes that that grown in the United States, according to the United States Grain Corporation.) That Montana wheat growers are buying in Alberta is significant of no more than that they recognize the value of the better quality for planting purposes, it was stated.

### CANADA DAILY GOING BEHIND IN HER SUGAR

(Windsor, Ontario, February 12.—"Canada is daily going behind 3,000, 4,000 pounds in her supply of sugar," said Commissioner James Murdoch of the Canadian board of Commerce at the close of yesterday's session of the probe into the operation of the "consumers' association," a cooperative concern, which is alleged to have built up a large mail order business, using sugar, quoted at several dollars per hundred pounds below the market price, as bait to unload other commodities on the public at inflated rates. The commissioner intimated that he thought the evidence was sufficient to justify an order restraining the operation of the organization for forty days.

The company is not incorporated in Canada, but according to evidence was recently granted incorporation in the state of Michigan, but S. Y. Martin, president of the concern, could not remember whether this was previous to October last when he was using stationery bearing the printed words "Incorporated under state laws."

Mrs. Martin, who was also on the witness stand, stated that one reason for buying sugar at times being substituted for white to customers was that no one in sympathy with this sugar would refuse to use brown sugar when there was a shortage of the white.

## Listen!

Have you heard about Peps? Peps is a scientific preparation put up in a pastille form, which provides an entirely new and effective treatment for coughs, colds, chest and throat troubles.

Peps contains certain medicinal ingredients, which, when placed upon the tongue, immediately turn into vapor, and are breathed down the air passages to the lungs. On their journey, they soothe the inflamed and irritated membranes of the bronchial tubes, the delicate walls of the air passages, and finally enter and carry relief and healing to the lungs.

In a word, while no liquid or solid can get to the lungs and air passages, these Peps fumes get there direct, and at once commence healing.

**FREE TRIAL** Cut out this coupon, fill in your name and address, and mail it (with 1c stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All druggists and stores sell Peps, 50c. box.

#### BOLSHEVISM IS

CLASS VENGEANCE.

General Pilsudski (Polish) on Bolshevism:

"Bolshevism is a purely Russian disease. You will notice that it does not take root in countries which are not purely Russian. In the parts of old Russia in which the social system is not characteristically Russian, as for instance, in Poland, Estonia, the Ukraine or Siberia—it has never obtained any real hold. The root idea of Russian Bolshevism is class vengeance. The usual idea of the Socialist is equality of certain rights for all men. That is not what the Russian Bolshevik wants. He desires a reversal of the old order of things. His idea is that the proletariat shall now rule and shall oppress those whose place it has taken, just as it formerly was oppressed. This is the heritage of the old Russian order, under which the serf was treated as dirt by his masters."

#### THE VALUE OF POLAND.

G. P. Putnam, in New York Tribune: Summed up, Poland has plenty of man power to take care of herself in the present struggle with Bolshevik Russia, but she sorely needs supplies, clothing and equipment. Without them, as Pilsudski, Padewski and others told me very definitely, the tragic possibility that before spring the Red tide may flow over Poland is a very real one. As the thinking men of that portion of Central Europe see it, the problem of maintaining the Polish bulwark in proper repair is the biggest one the Allies face today. And up until November full realization of this fact had not seeped into the functioning official minds at Paris.

#### MEAT GLUT AT PORT OF LONDON.

London Times, January 16: The congestion at the port of London, where 39 steamers are waiting to discharge their cargoes, was aggravated, it was stated, by the cessation of work during the Christmas holidays. Much of the confusion, however, is due to the arrival of exceptionally heavy cargoes of tea and frozen meat.

The 33 steamers waiting to discharge their cargoes in the docks in London last week represented more than 191,000 tons gross. This total may be taken as equivalent to about 261,000 tons deadweight. Taking the average value of the vessels as \$140 per ton deadweight, the value represented by all this idle shipping amounts to nearly 10,500,000 pounds. An average value for the cargo of these ships might be estimated on a very modest basis as being 500,000 pounds. The value of the cargoes of the ships laden with foodstuffs from Australia would, in fact, be very much larger. But on the basis of a value of 500,000 pounds each, the

## EX-MOUNTIE MAKES CONFESSION OF A HORRIBLE MURDER

Wilson, Under Death Sentence, Writes Story of Deed, Claiming He Was  
Out of His Mind.

Saskatoon, February 13.—In a written confession covering twelve folio pages, John Wilson, under sentence of death to die April 23, for wife-murder, declared that several times in the last few years, he had felt his mind weakening and that his love for Jessie Patterson and remorse over trouble he had with his accounts as a mounted policeman, caused him to suffer a complete lapse of memory on the day he killed his wife, Mary Wilson.

**COLD-BLOODED DEED.**  
He adds: "I do not remember all I did on the Thursday at all. I remember meeting the train with the car on Friday, Sept. 27, 1918. The shotgun was lying in the bottom of the car in three places. We started out on the straight road to Blaine Lake. I had no plans of any kind made, and I do not even know if I told my wife where I was going. Next thing I remember I was shooting two geese, it was getting dusk then and, returning to the car, I was just right beside the car on the left hand side and my wife was sitting on the front of the car looking right towards me, and just getting into the car. I remember letting the front end of the car back and holding it as low as my waist. I don't know whether I pulled one trigger or two triggers. I pulled the trigger intentionally, but I don't know what I was doing."

"Then I remember jumping in the car and shouting her name and started the car on Blaine Lake road holding her in my right hand. Then the next thing I remember the car was over the grade at the culvert. I was sitting on the grass, and the body was beside me, lying on its back with feet up on the rim road. "Then I remember I started to walk down the road. The next thing I remember was being under the culvert digging the grave in the soft earth. I was absolutely sure, but my head was all gone. Then the next thing I remember clear was filling in the grave. I remember taking the shotgun, shotgun and the grip and putting them on the ground, and setting the car back on the rim road. I don't remember whether I went to the farm house, or whether they came to the car, and I don't remember what was said except that I told them the car had caught fire."

The Red Deer hockey boys are now playing in their new sweaters—their new pants have not arrived yet.

## ADMIT SWITZERLAND MEMBER OF LEAGUE

London, February 13.—The council of the league of nations concluded its session today. The next meeting of the council was fixed for March 15 at Rome. On the motion of Mr. Matsui, the Japanese representative, the council agreed to place under the guarantee of the league the stipulations of the treaty between the United States, Great Britain, France, Italy and Japan on the one side, and Poland on the other, insofar as they affect persons belonging to racial, religious and linguistic minorities in Poland.

**ADMIT SWITZERLAND.**  
The council agreed to admit Switzerland as an original member of the league of nations, accepting the Swiss government's conditions for maintaining Swiss neutrality and her refusal to participate in any military operations undertaken under the auspices of the league or to permit the passage of foreign troops through Swiss territory, but agreeing to participate in any economic pressure applied by the league. Switzerland's admission to the league, however, is dependent upon a Swiss referendum confirming these conditions.

## NEWS WEEKLY SERMON

By REV. GEO. D. ARMSTRONG

Wherewith shall I come before the Lord, and bow myself before the High God?

He hath showed thee, O man, what is good: and what doth the Lord require of thee, but to do justly, and to love mercy, and to walk humbly with thy God.—Micah 6:8.

Our attention cannot too often be drawn to the fundamentals of religion as set forth in this statement of the ancient prophet.

Jerusalem was exceedingly prosperous in the time of Micah, but as in modern times there was an uneven distribution of wealth and more than in our own age a tendency for the rich to oppress the poor. In his earlier life Micah was a labor leader and strongly denounced the injustice of the land-owning and wealthy class.

Toward the end of his career a new danger threatened the nation in the growing power and aggressive policy of the Assyrian Empire. In this national crisis the people sought to fortify themselves by adopting the methods of the religion of their adversaries and many went so far as to offer human sacrifices, "giving the fruit of their bodies for the sin of their souls." There is something sublime under this repulsive form of worship—it expressed the principle "The best for God," but the prophet condemns the needless futile sacrifices and lays down a basis of worship which has permanent and universal value—the principles of justice, mercy and humility. He no longer denounces the sins of one class but recognizes the common necessity for all classes to recognize the principles which underlie national safety and prosperity.

The message of God to his people in the time of crisis is the same as that which avails in ordinary experience. In the crisis through which we are passing today the message of the church must be free from sectarian-

ism or class strife. It must address itself to men irrespective of economic conditions to obey these divine laws which are written, not on tables of stone, nor on statute books, but in our common human nature.

The value of these principles are generally acknowledged, but we fall short in the practical application of them in our daily lives. Our injustice injures ourselves, probably more than it does others. The tragedy of society is that we are losing or failing to acquire "the art of being kind." We readily acknowledge love as an excellent principle, but revolt when we try to apply it to our neighbor.

Religious and social controversy arises through our passionate determination to reform him in order to justify our love.

The principle of humility is needed to make our religious life full-orbed, and it will be well for us to remember also that humility is not to be mistaken for meek modesty. It is not an undue depreciation or exaggeration of ourselves but a true sense of the value we render and the relationship we bear to others.

No better example of this religion in actual experience than that of the great American statesman whose birthday was celebrated last week, the life of Lincoln we find in a man of action, whose religious nature was developed in the great personal and national struggle through which he passed with malice toward none and charity for all, into a nation cent around by granting interdependence and national unity.

He poured the influence of a personality permeated by the ideals of justice, love and humility. If anything further is needed it was possessed by him in a saving sense of humor. In our insistence that the highest holiest manhood is achieved in the Man of Sorrows, we have not always perceived the fine sense of humor in Jesus—the saving sense that transforms fanaticism into sanity and produces "an optimism without frivolity and seriousness without despair."

**WHY PAY RENT? OWN YOUR OWN HOME.**  
Why pay rent, and live in constant worry of having the house you now live in sold over your head, and no desirable place in sight to move to, when you can buy a nice comfortable home in one of the finest locations in the city, at a bargain price, on easy terms to a responsible party?

The house has an Entrance Hall, Living Room, Dining Room, Den, Kitchen and Pantry on the ground floor, also a built on Wood and Coal Shed. Upstairs has four nice Bed-rooms with large roomy closets closets.

The grounds are large enough for a law lawn, and a good garden. There is also a Barn and Drive Shed on this property. Only fifteen minutes' walk from the centre of the city.

This would make an ideal home for a retired farmer or any other man who is fond of gardening, and would like to keep a cow or poultry. There is plenty of good pasture close by. For further particulars apply to

## EDMONTON SPRING BULL SALE

The rules governing the ninth annual auction sale and show of pure bred bulls, conducted jointly by the Edmonton Exhibition Association and the Alberta Provincial Cattle Breeders' Association, have just come to hand. This event will be held on Tuesday, March 30th, commencing at 10 a.m. On the Monday previous the bulls will all be judged and any considered unworthy of the privileges of the sale will be rejected. Entry will be accepted for bulls only born after April 1st, 1915, and before June 1st, 1919. As the Dominion Government anticipates purchasing a large number of bulls at this sale, it is expected that buying will be brisk and Manager Stark states that with this in mind the Committee of Management are prepared to accept a larger number of entries than has hitherto been the case. This annual sale is held during the week of the Edmonton Spring Live Stock show, March 29th to April 3rd, and the entries close March 1st.

## The Peace Conference

This wonderful painting by G. Sheridan Knowles who by special arrangements with the British and French Ambassadors, was permitted to make his sketches right on the scene, depicts most vividly and accurately one of the events in the world's most momentous conferences. The original painting is six feet six inches by five feet, and the superb reproduction upon which our 1920 calendar is mounted is a picture that will be treasured for years by all who are fortunate enough to secure one. We have no mailing tubes, therefore we have not been sending them out, but we have distributed several hundred from our office, and we still have a small quantity for our friends and neighbors who are not yet provided. In fact, we purchased about three hundred more than our usual requirements because we were sure it would be greeted with universal approval. Even if you do not consider yourself a regular customer, or if you are a co-worker in trade, or a competitor, you are invited to call and get one of these rare pictures, or phone 166 and we will be pleased to send one to your address.

## HOUSE IS IN PUZZLED POSITION

Great Britain's Experienced Politicians Admit Air is Full of Possibilities.

London, February 11.—Great Britain's most experienced politicians believe that parliament has never faced a situation so full of incalculable possibilities, owing to the peculiar situation which faces the coalition ministry. The fact of the coalition ministry, Arthur Balfour and Lord Milner, and other probable resignations before the session ends. So also are the brothers Geddes, although Sir Auckland Geddes is puzzling the prophets by telling Hampshire constituents that he is prepared to contest the seat at the next election.

The Observer says Sir Auckland is a warm tribune. "To know him is to respect his storehouse of a brain and his staunch fibre. The weight of his achievement has not been seen, few mistakes have been visible, but no man has been more unfairly attacked. No more sterling ability or integrity, no more rooted honesty of character could well be combined, but that tall, tough, stolid figure, that solid cranial, will now withdraw to another sphere."

No one now supposes that that sphere will be the ambassadorship at Washington.

Sir Eric Geddes is expected to take a curious business appointment in two days. A curious suggestion was made today to the Observer which belongs to his devoted former colleague, Lord Astor, and is edited by that equally devoted journalist, Lord Astor.

It suggests that Lloyd George follow the advice of some of his good friends to do something Napoleonic—in fact to retire for six months or even go around the world this year.

Lloyd George has had fourteen continuous years in office under strain, which is equal to fifty continuous years of ordinary stress, and has paid the price in wear and tear, physical, mental and spiritual. The treaty of Versailles is a millstone around his neck.

## SUM RAISED SO FAR \$4,643,793

Chairman Confident Inter-Church Forward Movement Will Be Reached.

Toronto, February 12.—The total subscription for the five denominations in the campaign to raise \$12,000,000 in connection with the Inter-Church Forward Movement, which has been reported at the national headquarters, last night were \$4,643,793. G. H. Wood, chairman of the united national organization, last night, stated that the returns were for three days in Ontario and two days in the other provinces. He expressed confidence that the full objective would be reached notwithstanding that many of the canvassers had been stricken with influenza.

Following are the totals reported: Ontario, \$3,176,593; Quebec, \$568,051; New Brunswick, \$26,200; Nova Scotia, \$265,491; Prince Edward Island, \$23,600; Manitoba, \$170,161; Saskatchewan, \$202,359; Alberta, \$22,535; British Columbia, \$125,280.

## MILLION BUS. OF WHEAT THREATENED WITH RUIN

IN E. D. & B. C. RAILWAY TIE-UP.

That there are about one million bushels of wheat that have been standing on sidings on the E. D. and B. C. railways since October and November last, and which is now possibly only fit for feed, was the statement of C. L. Race, president of the Spirit River Board of Trade, who was in Calgary Tuesday morning.

Mr. Race is in Calgary to seek the co-operation of Calgary grain men in endeavoring to bring pressure on the authorities to have the large accumulation of grain in the north country moved. Up to the present, all efforts in other directions have been unavailing.

The situation in the Spirit River district, according to Mr. Race, is truly desperate. The three elevators are filled to capacity, and farmers constructed a number of temporary bins until all their lumber gave out. That situation has become so acute that, after farmers hauling their wheat in some cases 75 miles, they have had to leave their sleighs unprotected and their horses home again. In the latter cases they have not been able to secure a single cent of an advance, and tradesmen refuse to extend any further credit.

## CARS ON SIDINGS.

This, in a nutshell, is the present state of conditions in the Spirit River district. Three hundred cars were loaded up in the fall of last year, but only 30 of them reached Edmonton. The remainder being shunted on to sidings and left there. As this wheat was shipped in rather a moist condition, owing to the weather conditions at the time, it is feared that this enormous quantity of wheat, representing about 1,000,000 bushels, will now be only fit for feed. The only possible chance of saving it, said Mr. Race, was to get it to the drying elevator before the warm weather came. The chances of this, however, appeared at the present time to be very remote indeed.

It was only after the farmers waiting for their returns until they became impatient that inquiries were made respecting the 100 cars which were loaded in October and November last, when seventy of them were saved on sidings.

Mr. Race stated he had interviewed W. R. Smith, the general manager of the E. D. and B. C. railway, who had made the statement that if the other railways had lived up to their promise there would have been an ample supply of cars available to take care of the situation; but Mr. Race stated it was claimed that the E. D. and B. C. railway had refused cars from the C.P.R. some three weeks ago.

"In the whole situation, he said, was one that stood alone in the annals of Canadian transportation. The engines that had been leased were second-hand, and they could hardly pull their own weight. As a matter of fact, it required six of these to pull the passenger train through by the he travelled.

## MUST BE QUICK ACTION.

"Unless the shipments are affected by March 15," he said, "the situation will be such that owing to the road it will be practically impossible to get the freight cars through."

The president of the Calgary Grain Exchange has wired to the Canadian Board, and also the railway commissioners, urging in the strongest possible terms that immediate steps be taken effectively to relieve the situation.

Mr. Race stated that there were 40,000 bushels in the elevators in Spirit River, and many thousands of bushels in the temporary bins that had been constructed, in addition to wheat that had been loaded up in the cars and left on sidings.

According to his statement, at least 300 cars will be required to take care of the situation, and it is absolutely necessary that a more powerful type of engine be employed in the hauling. It must be borne in mind that the situation applies to the Spirit River district alone. That similar conditions apply in other parts of the north country is instanced by a telegram received Monday by the U.F.A. from J. W. Boyd, the secretary of the Grande Prairie local.

This telegram reads as follows: "Transportation situation at Grande Prairie serious. No train in for three weeks. Only one dry load of first class mail from Spirit River in that time. No second class mail. Elevator refuses to accept grain. Many cars loaded with grain on sidings between here and Edmonton. Some of them loaded in October. Large quantities still to be marketed. Fuel situation critical. Can you help us out of this deplorable situation?" This matter is now engaging the attention of the head office of the U.F.A.

## NEWCASTLE UNITED ON TOUR

Famous Old Country Club to Travel Throughout the Dominion.

Montreal, February 10.—The schedule of the tour of Newcastle United soccer team in Montreal, May 23; Toronto, May 24; Hamilton, May 29; Port William, June 2; Winnipeg, June 9; Regina, June 13; Saskatoon, June 13; Edmonton, June 12; stop over at Banff, June 19; Victoria, June 25; Vancouver, June 26; Calgary, July 1; Winnipeg, July 3; Toronto, July 10; Ottawa, July 14; Montreal, July 17. The trip will take them from Montreal to Vancouver with opening game being played at Montreal, May 23, and the final game of the tour, July 17. It is the first time in the history of sport that such an elaborate schedule has been arranged with an English team.

Newcastle United is one of the strongest teams in Great Britain. They are members of the English league, first division, and have always been among the leaders since the club gained a place in the first division rank some years ago.

## THE "PROFITING" FARMER

(Farm and Ranch Review)

The Dominion Statistical Bureau has just published the crop estimates for the past season which show that we harvested in Canada 123 1/4 million bushels of wheat from a little over 19 million acres, or approximately 19 bushels per acre. The average value of this crop was found to be for spring wheat \$1.36 per bushel at the point of shipment. This is the nearest estimate that can be made at this time, and it is substantially correct. This gives us an income of \$13.60 per acre of spring wheat for the whole of Canada. In Western Canada, with the higher costs of transportation, the income was a little below that figure.

Now, let us take a look at the other side of the ledger. We have just examined the cost accounts of one of the most efficiently and economically managed farming enterprises in the west. We find the cost per acre of producing last year's crop to be as follows:

Summerfallow and harrowing	6.22
Seed and sowing	3.25
Planting, weeding, and thinning	3.01
Hauling and elevator cost	4.68
General expenses and living account	2.39
Cost of hauling to buildings and equipment	1.40
<b>Total</b>	<b>\$21.85</b>

This particular crop yielded a little over 12 bushels to the acre, but the cost of hauling the average (10 bushel) crop would be practically the same, the only difference would be in the cost of threshing and elevator charges, amounting to only a few cents. Those who know this particular farmer do not generally admit that the average farmer cannot hope to duplicate the measure of efficiency and economy that prevail in its management and equipment. We may, therefore, safely take it for granted that the average cost per acre of producing wheat in Canada was much higher than that shown above. In this connection it is of interest to note that the cost per acre of this farming concern in 1914 was \$11.70. There is food for reflection there.

We therefore find that these "profiteering" farmers all over Canada received payment last year at the rate of \$13.60 per acre of wheat, less cost, at least, \$21.85 to produce. What happens in a season like that? The farmer does not generally go broke. He has survived so many disastrous seasons of that sort. There is no great mystery about the matter. This is what happens: His cash income is sufficient to pay his bills for labor and supplies. His seed was saved out of the previous year's crop. "Depreciation" is not paid in cash. He staves off his interest payments, if he can, and has probably money enough left to carry on for the next year. Of course, in that kind of a case, he gets no wages for his services. Just his keep. He can perhaps buy himself a new pair of overalls, and his children get boots and clothes out of the chicken money. It is hard to "break" a farmer. But what about the cold-blooded business aspect of the case? How does it stack up against the profits of the retailer or wages of the unemployed laboring man?

## SPANIARDS GET REAL EXCITABLE AT PRIZE FIGHTS

Madrid, February 10.—An attempt to stage a pugilistic bout between Frank Crozier, who was defeated by Jack Johnson in 1916, and a fighter named Nemes, ended in a dual failure. The crowd, which filled the hall, treated the fighters much as they would have treated bull-fighters, and became so excited that instead of one fight, three dozen fights were proceeding in the hall at the same time. The scheduled fight had to be called off.

PLASTERING.—C. Hagot is open for Contracts in the Plastering line. Over twenty years experience. All work guaranteed. Your patronage solicited.—Residence, 157, 2nd St., South. Mar. 19-17

## WHAT YOUR TOWN NEEDS.

The way that people knock in some of the small towns one would think that it was anybody else's town, but not theirs. But it isn't—it is their town. If there is something lacking, the town is to blame for it. But it isn't the town that is to blame—it is the people in the town. What they ought to do is not to complain merely, but to go to work to correct it. If your town has anything the matter with it, if it needs some improvement, home pride, more of a community spirit, development of its resources, encouragement of home investment, then it is up to you, the people of your own town, to do it. "What this town needs," says one

man, "is a new depot." Another says, "your town needs more improvements." Another says, "it needs lower taxes," but what your town needs is men who will get what your town needs. Whatever your town needs can be got by presenting a solid front. Decide to do something individually as well. If you get together you will get more together. Your town will grow if you let it alone; it will grow perturbed. You cannot very well ask others what your town is doing for you until you ask yourself what you are doing for the town. What your town needs is some constructive criticism. Constructive criticism is to call attention to a hole in the fence by bringing a board to fix it—Rural Canada.

## Fifty Years of Mutual Service

CANADA, a nation founded upon the solid rock of mutualism, has vindicated in a splendid way this principle of co-operation, so the success of the Mutual Life demonstrated to Canadians the value of the mutual life in life insurance.

Established upon a solid, old-line, legal reserve basis, the Company has grown to its present proportions with its assets of over \$55,000,000 and more than \$10,000,000 of insurance in force.

From its inception the Mutual adopted the custom of paying claims with promptness. Previously the custom had been to demand thirty to ninety days in which to make payment.

The Mutual also initiated the custom of inserting tables of guaranteed surrender values in its policies.

Today more than 60,000 Canadian homes are enjoying the protection afforded by the various policies issued by Mutual Life Insurance Company of Canada.

Today, as Canada is looking forward to a future of wonderful prosperity, the Mutual has every reason for expecting to expand with the rapidly-growing Dominion.

Is your family sufficiently protected? The Mutual Life of Canada provides insurance at cost.—J. Balle, general agent, Red Deer.

The W.A. of St. Luke's Church hope to have their usual series of ten cent teas and sale of home made cooking during Lent, and will hold their first one on Saturday, February 21st, in the Alexandra Hall, Ross St.

Opposition to the life of trade Farmers, we want your cream in our business. The Swift Canadian Co. are paying the highest cash prices for cream and poultry. E. B. Hill is handling the goods and will give you a square deal every time. Bring us your poultry every day except Saturday.

The regular meeting of Pine Lake Municipal District, 335, which should have been held on Monday afternoon last, in the city hall, was not held owing to there not being a quorum, there being sickness in the family of Reeve W. J. Reay and Councilor James Durrough, of Milberton. The meeting will now be held on Monday, March 1st, at 10 a.m., in the City Hall.

## BIRTHS

In Red Deer, on Wednesday, Feb. 4th, to Mr. and Mrs. A. H. Bearshel, a son.

At Mrs. Wright's Nursing Home, on Wednesday, February 11th, to Mr. and Mrs. E. G. Johns, a daughter.

At Mrs. Wright's Nursing Home, on Friday, February 13th, to Mr. and Mrs. F. S. Sawyer, of Pine Lake, a daughter.

## POPLAR RIDGE NEWS

Miss Christina Bone gave a pleasant birthday party on Thursday of last week. Everybody enjoyed a jolly time.

The school teacher has moved to Mr. Christian's home, where he will board in the future.

Miss Ruth Atkins has been visiting her sister and friends in Red Deer. The news correspondent and the many friends of Alex Kask extend to him our sincere sympathy in the loss of his wife.

The U.F.A. have decided to call off their box social, announced for the 27th of February, owing to the prevailing sickness in the country.

The boys had better get busy and get their logs out, as Mr. Austin has promised to come back after seeing and cutting them for them, and we know that he will do it.

Mr. Depove auctioned off a stray animal that was on Mr. Staples' place at the school house, last Saturday, and got a fair price for it.

## EVERGREEN

## KILLED AT SAUNDERS CREEK

Mrs. John Sarc received the sad news, Wednesday evening, that her husband had been killed instantly at the Saunders Creek Collieries on Wednesday morning, February 11th.

Mr. Sarc left his home on Monday with the intention of working a couple of months at the mine. He entered the mine at 8 a.m., beginning his first shift, and was instantly killed about 9 o'clock. He leaves a wife and four children to mourn his loss. The oldest girl, Miss Magdalene, is attending school in Red Deer. Mrs. Sarc came here from Wyoming, U.S., in April, 1912, and homesteaded two miles west of Evergreen P.O., where he built a home for himself and family. He was highly respected by all who knew him, and one who will be missed by his many friends. He was about 45 years of age. Mrs. Sarc and family have the sympathy of the community.

PRINCIPAL KEITH  
SAVES GIRL'S LIFE

Glencoe, January 31.—A thrilling escape from death happened on the arrival of the International Limited from Toronto at the Grand Trunk depot here at 10:30 last night. Mrs. P. D. Keith and her daughter, Florence, had gone to the station to meet Rev. N. D. Keith, principal of Westminster Ladies' College, Edmonton, Alberta, who has come east in connection with the finances of the institution. Leaving the depot, what appeared to be a dead freight train, obstructed the spur crossing. A number of people made their way around the end of the car and crossed over safely. As Miss Keith reached the middle of the tracks the train without warning started. The young lady screamed, and paralyzed with fear, fell helpless in the deep snow between the rails. The reverend gentleman, who was a few feet in advance dropped his grips and sprang towards her, the oncoming train being only one yard away. With a quickness born of desperation, he threw himself prone upon the helpless girl and by a superhuman effort rolled her and himself to safety. A fraction of a second afterwards the car whirled past over the spot. Both escaped without a scratch. The lady's hat was cut to pieces under the wheels.

Strayed—Aldredale (female); extra large specimen. Answers to name of Gypsy; very short tail. Finder please return to T. B. Butler, Red Deer.

## TREASURY BILLS

The City has sold \$17,000

of Treasury Bills at Private Sale, and no doubt there are many citizens who would be pleased to invest in these very desirable securities. There are \$23,000 available for local investment, and it is desirable that those interested should get in touch with the Secretary-Treasurer or the Mayor at once, as the Mayor goes East very shortly on city business, and purchases should be made before he goes.

Recent inquiries indicate a real interest in our securities, but we consider our own people should have the first opportunity of purchase; and there need be no publicity attached to any transaction if the purchaser so desires.

PHONE 64 or 167.

Ford

IF the Ford Motor Company of Canada, Limited, is able to build up to the limit of its capacity, only 27,350 Ford Cars will be built for use in Canada between January the first and July the thirty-first of this year. Divided among the total population of Canada this means one car to every three hundred and ten people.

It is easy to see that many people will be unable to get their Ford Cars at all, and many will have to wait for summer or fall delivery.

As Ford Dealers in this territory, we desire to deliver a car to every person in this district who wants one, but we cannot get the cars unless we send in the orders now.

If you will need a car later on, don't wait till spring before ordering. Put yourself at the top of the delivery list by signing an order today.

FRED LUND, Dealer Red Deer

Building  
Time

will soon be here and we are preparing for a big season. We are unloading new stock every day from the best mills going, and can fill your every want with all bright, clean stock.
